

DIGITAL DUPLICATOR
BPS-550

- ✓ IAuto shut off
- ✓ Network printing function
- ✓ Auto print pressure adjustment
- ✓ U-disk master making

Key Specifications/Special Features:

BPS-550 is the best combination of multi-function, high efficiency and fashion design. Big LCD Display, easy to operate, A3 paper scan, A3 document feed. It is easy to fulfill various printing requirements and realize the best performance on PC connected printer

BPS-550 is more flexible and easier to control having simple operation, obvious operation control pannel with upgraded management. This machine is technically innovative and achieve super printing with precise paper feeding and maximum speed of 130 PPM. PC connected printing gives high quality output.

Model	BPS-550
Operation mode	Scanner mobile scanning,Thermal master making,
Scanning mode	Sheet,Book (Less than 10kg),Two in one, with Computer Interface
First copy time	Approx.: 18S
Resolution	300dpi x 600dpi
Original size (max)	310mm x 435mm
Paper size	90mm x 150mm -310mm x 435mm
Paper weight	40gsm-210gsm
Paper feed capacity	1500 sheets
Paper receiving capacity	1500 sheets
Printing speed	5 selections (50, 70, 85, 105, 130ppm)
Print deinsity adjustment	5 levels(Lighter, light, normal, dark, darker)
Print position adjustment	Horizontal +-10mm.,Vertical +-10mm.
Master eject	Automatic ejection (40sheets)
Other function	Book shadow erasure, programmed printing confidential mode,codemode,auto checking original,energy-saving, print contrastadjustment, Ink saving
Rated Input Power	120W
Dimension(D x W x H)	Using: 132*62*61cm Storage: 66*62*61cm
Net weight Approx.:	97 kg

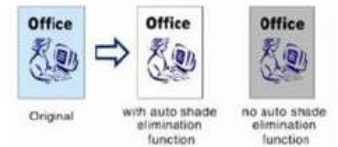

• Two in one function

This function easily and efficiently makes two originals to be printed in one page.

• Auto shade elimination

BPS-550/450 eliminate the shade automatically during printing to keep the paper clear and clean.

• Auto printing density adjustment

They are so humanized that they adjust the printing density automatically, controlled by PCB process, to keep stable output not affected by environment or print speed.

• Superior drying device

Quick dry avoid back-penetration. The paper keeps clean to be available for double-side printing.

Innovative design of paper feeding by double rollers which is much more stable. Simultaneously feed paper to guarantee one page input only once.

• Super low cost

BPS-550/450 are cost-effective. They are more aggressive in features and low-cost. The more you print, the lower cost you bear for consumable master and ink .
