BPS-350

BPS-350 digital duplicator is a much more user-friendly model. It needs less time for master making, and it is a very productive office assistant to make print been easier and faster. Unique U-disk master making function makes print work been more efficient. In addition, it is also cost-effective product, less cost, more creativity.
With 130 PPM fast printing speed, BPS-350 realize easy processing even for high-volume printing work. In addition, with multi-shift adjustment switches, BPS-350 adapt to different thickness of paper feeding.

Precise paper feeding pressure adjustment realizes excellent printing of various paper types, from 40g-210 g/m². Three shifts pressure adjustment from thin paper to thick paper enhances reliability.

Time needing for 1000 printing pages

print speed	
fastest 130ppm	about 8.5 mins
fast 105ppm	about 9.5 mins
standard 85ppm	about 12.0 mins
lowest 55ppm	about 18.5 mins

Normally 1000 sheets paper-receiving capacity, even can reach 1200 (60g/m²) sheets. Paper feeding tray can heap 1200 shoots (60g/m²) at once during high-speed printing.

Master eject capacity is easy for 50 sheets.

Innovative design of paper feeding by double rollers which is much more stable. Simultaneously feed paper to guarantee one page input only once.
